Suzhou CHISEN TOOLS Co., Ltd. is a professional manufacturer and supplier of hand tools based in China. Since then we have expanded our market year by year to where we now have customers in many countries around the world.

There are about 60 employees in our factory and most of them are working in the factory area of around 1000 square meters. We produce a wide variety of hand tools, including wood chisel, combination pliers, long nose pliers, diagonal cutting pliers, locking grip pliers, electrician knife, aviation snips etc. Those hand tools are of good quality, are popular with customers, and sell well. Our total production is average 1 million pieces per year, 80% for export and 20% for the domestic market. Our products and OEM brands have been exported to the United States, Canada, Europe, Australia, Japan, Korea, and some other countries in South East Asia and Africa. Keeping dedicating ourselves to the hand tools manufacturing, CHISEN is your reliable business partner of hand tools.

Being honest and farsighted, CHISEN is committed to achieving the highest standards of service and meeting the needs of international businesses through acceptable pricing, controllable quality, and reliable delivery.

CHISEN was named after chisel

Mr. Chuang established CHISEN in 2004, and the first product was wood chisel. In fact, Mr. Chuang started his first job in a government owned hardware company in 1970s as an apprentice. He worked very hard in this company and a few years later he became an engineer. With China's reform and opening, many foreign companies start to purchase products from China. This company has developed many products for its foreign customers, including pliers, wood chisel, adjustable wrench, etc. Mr. Chuang was in charge of the development of wood chisel.
